Mr. A. Yuill,
OF EDMONTON,

WILL LECTURE ON THE SUBJECT,

"Millions Now Living Will
Never Die!"

AT

Town Hall, Stony Plain,
SUNDAY, SEPT. 25th,

AT 4 P. M.

This Lecture furnishes positive Biblical proof
and secular evidence that within the next few
years we will enter the long-hoped-for period,
when families will be re-united and live happily
on earth ever after.

Seats Free.

No Collection.

katchewan River only)—Dec.
1 to April 30.
Deer, Moose, Cariboo—Nov. 1 to
Dec. 14.
Mountain Sheep and Mountain
Goats—Nov. 1 to Dec. 14.
Game Licenses may be obtained at
the office of The Stony Plain
Sun.

Attempted Burglary.

An effort was made about one
o'clock Monday morning by two
strangers to steal some of the local
cars. About that time, a man
was seen trying to get into
the New Garage, but was scared
away by Mr. Romeo Rivest. Short-
ly after Mr. Bonser heard someone
at his car, which he had left in
front of his residence. The party
had rolled the car away from the
house and had tried to start it.
On seeing Mr. Bonser coming,
with a shooting iron, the stranger
jumped out of the car, and beat it.
Mr. Bonser then took the car to
his Garage for safe-keeping. Early
the same morning, someone effect-
ed an entrance into the Hardwick
General Store, but very little was
taken.

LOCAL NEWS.

Mr and Mrs John Armbruster
returned on Sunday from a motor
trip to Banff.

Mr and Mrs W J McCulla were
visiting friends in Edmonton on
Sunday.

Mrs (Dr) Jones, who had been
spending the summer on the Coast,
is expected home this week.

Mr O G Wudel, Wetaskiwin,
was in town on Saturday.

Mr Chas Schultz was up from
Vegreville over the week-end.

Mr John Shearer is in town this
week.

W Hood, who is now farming
near Westlock, was in town on
Saturday.

Mr John Metzler was in Calgary
last week, to be fitted for a mech-
anical arm.

Our old friend, Wong Chee,
who returned last week from a
9 months' honeymoon in China, is
now head engineer at the Royal
Hash Foundry, vide Mr Franc re-
tired.

Mr and Mrs J E Frith and
family, so well and favorably
known in this district, are mov-
ing to the Hand Hills District,
near Dalia. General regret is ex-
pressed at the removal from the
district of this worthy family.

The Annual Constituency meet-
ing of the Women's Institute will
be held at St John's Schoolhouse
on Saturday next, Sept. 24.

The United Grain Growers will
have a track buyer in Stony Plain
this season.

Mr Rothe has commenced the
erection of his house on the main
road east.

The Stony Plain School Board
sat as a Court of Revision last
week, and heard several appeals
from the assessment.

A 15-30 Case tractor and a Case
separator were unloaded here on
Monday morning, for Mr Fred
Tyrkola.

The skating branch of the
Athletic Association met Friday
evening last. An appropriation
was made for enlarging the pre-
sent rink, and the work has been
awarded to Mr J M Enders.

A record crowd of shoppers was
in town Saturday evening. Main
street being pretty well filled
with cars. A slight diversion
was created about 10 p.m., in
front of Wong York's Ice Cream-
ery, when a couple of husky
ginks had an "argument" a la
Dempsey.

A meeting of the directors of
the U.F. West Edmonton Consti-
tution Association was held last
week, and arrangements made to
hold a convention for the Con-
stituency on Wednesday, October
12, when the question of candi-
dates will come up. Ten of the
twelve Federal ridings in Alberta
have already decided upon Farmer
action in the coming contest, and
in several cases nominations have
been made.

Game Licenses may be obtained
at the office of The Stony Plain
Sun.

The Mistake Of Hoarding

Canada, like all countries of the first class, has journals and publications whose business it is to reflect and promote the special and particular interests of certain classes and institutions. There are trade journals devoted to the interests of almost every conceivable line; financial papers dealing with banking, insurance, loan, trust and mortgage corporations; papers promoting the welfare of the vast and all-important industry of agriculture and stock-raising; labor publications championing the cause and recording the activities of organized labor; purely political mouthpieces maintained to advance the cause of this or that party organization or political principle; journals and magazines maintained by churches and philanthropic and social service organizations; and straight out and out newspapers.

All these many publications are legitimate, praiseworthy and play an important and proper part in the life of a country like Canada providing they are straightforward and honest. The paper in which this article appears is, however, first, last and always a home paper devoted to recording the news, activities and upholding the interests of the people in the local community in which it circulates. It does not seek to serve any particular group, but the whole people of its own community and thereby help to advance the welfare of all. It does not profess to attempt to right the wrongs of the world nor to solve the gigantic problems of the present day, except in so far as the encouragement of sound, commonsense action by the ordinary everyday citizen helps in these directions. It is for this reason that so many of the articles appearing in this column are addressed to the individual occupying a small and perhaps inconspicuous place in the national life, but nevertheless one of the really great and influential factors making for national stability and progress—in fact, the basis, the greatest factor of all.

In common with all countries today, Canada is suffering, although not to the same extent as most lands, from a business depression resulting in tight money, a slackening in industry, high freight rates and high prices generally for commodities and a serious lack of employment for thousands willing and anxious to work. Governments, great corporations, captains of finance and industry, all have a tremendous responsibility, during such a time as the present. Everybody recognizes this and the average citizen probably expects too much of them and demands that the impossible be done in an effort to right matters. But what is not so well recognized and appreciated is that each individual citizen can in a small way do much to improve conditions, and if all individuals, or a large majority of them, discharged their small duties the effect in the aggregate would be greater than anything Governments or corporations can do, and would make action possible by them which they are now powerless to take.

Take, for example, one present adverse condition—tight money. Hundreds of millions are required for national purposes and scores of millions more for financing the purchase and marketing of this year's crops, not to speak of the enormous sums necessary to keep the wheels of industry revolving in the present depressed state of business in order to prevent an actual shutdown in many directions. Can the average man do anything to relieve the money market? Of course he can, if he only will, but fear, selfishness and ignorance so frequently prevents him from doing so.

It is well, therefore, that every man should appreciate certain simple truths which are real economic facts. The business of the world is carried on on credit. In order that credit may be established and provided it is necessary that there be something substantial back of it. For this reason Governments and all banks and financial institutions maintain reserves in gold or liquid securities. It is a well known fact that a dollar deposited in a Bank serves as a source of credit for many times that amount. It is stated on reputable authority that a dollar deposited in a bank provides anywhere from five to ten dollars of credit for the carrying on of business.

Yet there are many people who through fear, selfishness or ignorance, keep money in varying amounts in the house from year's end to year's end. They not only run the risk of loss through theft or fire, and lose the interest which their money on deposit would earn for them, but through the mistake of hoarding they are depriving the community of the incalculable benefits of their money placed in a recognized Bank which would provide for the benefit of all, themselves included, because in our complex twentieth century civilization no man can live to himself alone and general adverse conditions affect him as well as all others.

A writer in an Ohio farm Journal estimates that at least \$50,000,000 in that State alone is hoarded away in homes which, if placed on deposit in Banks, would serve as a source of credit for from \$25,000,000 to \$50,000,000 and go a long way towards relieving the present critical situation. This writer points out that, aside from the protection afforded against loss by theft or fire, the biggest reason why all surplus money should find its way into the Banks as promptly as possible is that the Banks are the credit factories, and the raw material of the credit which they manufacture is hard cash, and it is hard cash which the country needs at the present time. Moral: Don't hoard your money but put it to work for yourself, your community and your country by placing it on deposit.

Mighty few people will steal so long as they can borrow.

Constipation Is Relieved

Prompt—Permanent—Relief

CARTER'S LITTLE LIVER PILLS rarely fail. Purely soothing—act easily but gently on the liver.

Relieve after dinner distress—relieve indigestion, improve the complexion—brighten the eyes.

Small Pill—Small Dose—Small Price

Plot To Overthrow Soviet

Conspiracy Carried On Under Cloak Of Famine Relief.

"Revelations at Moscow following the arrest of members of the Russian famine relief committee, are said to prove the committee was plotting to overthrow the Soviet Government under the cloak of carrying on relief work, says a despatch to the London Daily Herald from the Russian capital. An extraordinary commission is said to have discovered letters showing the conspiracy was widespread. One of these is said to have been a scheme for reorganizing Russia under a supreme ruler with a federal dual regional, and parish dumas, and local governors.

Minard's Liniment used by Physicians

Canadian Flour in Venezuela

Venezuelan bakers will use Canadian flour when the price drops to that quoted on American flour is stated in a communication issued by the Dominion Department of Trade and Commerce, and based upon a report from H. A. Chisholm, Canadian Trade Commissioner in Venezuela. The bakers of the South American Republic express the opinion that Canadian flour is of a very superior quality.

Born That Way

She—Has your friend long been bald? He looks so young! He (pathetically)—He was born so. She (much moved)—The poor thing!

Teacher—Why, Tommy! How can you come to school when your little brother has scarlet fever?

Little Tommy—Well, Miss Brown, he's only my half-brother.

A CORDIAL INVITATION TO DISEASE

This is an apt description of Constipation. It's an unnatural condition to begin with—but it's dangerous because it leads to indigestion, fills the system with poisons, brings on anaemia. You don't need a purgative, you don't want to weaken the system by a harsh gripping medicine—what you need is mild, natural stimulation to stimulate the bowels. You get just what you need in Dr. Hamilton's Pills which tone up the liver, restore the bowels to normal action and positively end constipation. You'll feel fit top after regulating your system with Dr. Hamilton's Pills. Good for young and old—a real family medicine, 25c all dealers or The Catarrhocine Co., Montreal.

Belgium is already supplying France with coal and Great Britain with glass.

WHEN BABY IS ILL

When the baby is ill; when he cries a great deal and is in a small way do much to soothe him, attention or petting makes him happy. Baby's Own Tablets should be given him without delay. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus drive out the cause of his illness. Break up colds and simple fevers and make teething easy. Concerning them Mrs. D. M. Chelver, Trois Pistols, Que., writes: "I am well satisfied with my use of Baby's Own Tablets. I have found them of great benefit to my baby when he was suffering from constipation and I am confident they would be of benefit to other mothers." The Tablets are sold by all medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

The Smith family numbers 14,000, 000 members throughout the world.

Rural Route No. 1, Mascouche, Que. The Smiths' Little People. One of the best tests of a medicine is whether it is accepted to write you. I have had four tumors removed on my back. I had them cut off by a surgeon about fifteen years ago, but they grew again. All about three months ago I had one as large and shaped like a lady's blouse on my back. I was getting so much trouble from it that I was a constant worry to me. About three months ago I got a bottle of your medicine for another purpose and saw on the label good for tumors. Well I tried it and kept it for exactly two months, after the result that it has eagerly removed all trace of the tumor, and were it not that they had been cut fifteen years ago, no mark would be seen. I have not been asked for this testimonial and you can use it as you see fit.

(Signed) FRED C. ROBINSON. P.S.—I am a farmer and intend using Minard's Liniment on a mare for a strained tendon, and am hoping for some results.

FRED C. R.

On dark nights a white light can be seen farther than any other, but on light nights red takes the first place.

Catarrhal Conditions

Catarrh is a local disease greatly influenced by constitutional conditions. It depends on a general condition of the system. CATARRH MEDICINE is taken internally and acts through the blood upon the mucous surfaces of the system. IATERS CATARRH MEDICINE gives the patient strength by improving the general health and builds nature to doing work.

All Druggists. Circular free. F. J. Chelver & Co., Toledo, Ohio.

Even if the wind does whistle occasionally, it never tackles popular airs.

Mittler's Worm Powders are the medicine for children who are found suffering from the ravages of worms. They immediately alter the stomachic conditions under which the worms subsist and drive them from the system, and, at the same time, they are tonic in their effect upon the digestive organs, restoring them to healthful operation and ensuring immunity from further disorders of such a cause.

Well Known Farmer Declares He Only Had Bare Fighting Chance

"When I began taking Tanlac it looked like I only had a bare fighting chance for life, but it put me on my feet feeling as fine as any man could want to feel," said William Padfield, well-known farmer living at Kipling, Sask.

"I was 66 emaciated that I only weighed 120 pounds when I started taking Tanlac, and was so weak I was almost in a state of collapse. I could not get any good out of the little I ate, as my stomach was in such an awful condition that even the lightest food soured and caused me misery.

"It was lucky for me that I took the advice of a friend who told me about Tanlac. It could not have done better if it had been made especially for my case, as it took hold of me right from the start and fixed me up so I could eat anything.

"Never in my life have I seen anything to equal the way I have gained in weight. I now weigh 185 pounds, have a strong back, and I can honestly say that I never felt better in my life or had more energy. Tanlac certainly does the work."

Tanlac is sold by leading druggists everywhere.

News To Many

United States Has No Organization For Harvest Help.

More than 30,000 farm hands came to the west from Toronto and the east to Manitoba and Saskatchewan to work a month at \$4 a day. They were clean-cut, intelligent young fellows, full of pep and ambition, and many of them will remain in the west as permanent developers. They were recruited by Dominion agencies in the east and all arrangements, including transport, were organized and managed by the government. This great movement of unskilled labor to meet the widespread, hurry-up demand of the harvest is in strong contrast to the hit or miss methods employed in the States.—Minneapolis News.

Wheat Via Panama

It is predicted that the movement of Canadian wheat to Europe via the Port of Vancouver and the Panama Canal will be at least forty cargoes during the winter season of 1921-22.

On The Marriage Day

Romance usually ceases, and history begins, and sore corners begin to go when "Red" is applied. Tanlac takes out corns, roots, branches, stems—no trace of a single corn left on the foot. Tanlac is sold by leading druggists. Refuse a substitute.

There are in New York, it is said, women who make a living pawning things for others.

HAS NO PAIN NOW

What Lydia E. Pinkham's Vegetable Compound Did for Mrs. Baker and Mrs. Kiever.

Vancouver, B.C.—"I am pleased to say that Lydia E. Pinkham's Vegetable Compound has done me a lot of good. I can now walk about without the aid of a support and feel real strong again. A nurse advised me to take the Vegetable Compound and it is certainly helping me. It seems like Heaven to be relieved after months of pain."

Mrs. H. W. BAKER, 8874 10th Ave. West, Vancouver, B.C.
Albert Co., N.B.—"I have taken Lydia E. Pinkham's medicine and they have done me a lot of good. Since then I have been able to do my housework and I have a lot of work to do as we live on a farm. Seeing your advertisement in the papers was what made me think of writing to you. I hope this may help some one else."

Mrs. W. B. KIEVER, Upper New Hope, Albert Co., N.B.
The reason women write such letters to the Lydia E. Pinkham Medicine Co. and tell their friends how they are helped is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives. Freed from their illness they want to pass the good news along to other suffering women that they also may be relieved.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co., Lynn, Mass.

Thair is menny Kind of papers such as news, rapping, note, wall, oil, waste and others 2 newmerrus to men-shun.

Peepul often gets rapped in the noosepapers, but good stoarkeepers don't rap nothin' in newspapers, but have rapping Pap's.

Note paper is sometimes rapping paper. When yew send a dunning note on note paper yow usefully don't care a rap how hard yow rap.

Paper is sed by sum authorities to keep peepul warm, espeshery note paper. My paw sez a 30-day note of his'n keep him in a sweat for a hole month onct.

Wall paper is yewful mostly fur landlors to raze rents on. They raze it wunce when they promiss tew paper your shack and they raze it again when they do it.

Latest Bear Story.

Ed Pilon, a well-known resident of the Rocky Rapids district, was in town on Saturday last. Among other items of news, Ed was telling the story of how Jerry Fullape an old pioneer of Rocky, engaged in a desperate battle while in swimming in the river, with a brown bear, one afternoon last week. After a lengthy tussle with Bruin, Jerry finally got hold of the bear with both hands and stunned him with a blow on the head from an axe which he held in the other hand. Jerry claims he swam ashore holding the bear in his teeth.

Ed told another nearly-true anecdote, but, as Kipling says, that's another story.

TAX SALE.

SALE OF LANDS IN THE TOWN OF STONY PLAIN ALBERTA, FOR ARREARS OF TAXES.

Champion Cow Dies.

We are sorry to report the death of the purebred Holstein cow, Mercedes Duchess 2d, on Thursday night last, at Sunnybrook farm, from milk fever and inflammation, after having a nice bull calf.

This week we received word that Mercedes Duchess 2d has held the 4-year-old Alberta milk record for over three years, until her stablemate Daisy Alcatraz has replaced her record by over one hundred pounds of milk in seven days, breaking the record by over one hundred pounds in seven days, breaking the records in several classes, both in Alberta and the Western Provinces.

According to a report from the Canadian National Exhibition which closed in Toronto last week, Lucy Gray 2d was junior champion this year. This is the heifer which Mercedes Duchess Pontiac (Mr Wm Gilbert, owner) beat in Edmonton, for both first prize and the championship.

What—What?

The very interesting fact was proclaimed at the meeting on Saturday of the directors of the Millet Fair Ass'n that, for the fifth year, the Millet Fair went completely over the top, and it is a wonder to all how an organization like the Millet Agricultural Society can—

Always make their Fair pay;

Have an exceptionally good Fair;

Charge no admission to the grounds;

Get no Government grant;

And, on the top of this, make quite a little sum for a rainy day.

Alberta Butter Wins.

Alberta buttermakers made a clean sweep in the butter competition at the Fair at New Westminster last week. They captured the High Average, 5 firsts, 3 seconds, and 2 thirds. The judges were unanimous in their decision in favor of the Alberta entries, which won out in competition with the entire Canadian West and several of the Northwestern States.

The Wm Gilbert exhibit of live stock was entered at this Fair, made a good impression, and won a number of prizes. This exhibit was in charge of Mr Sid Shepherd.

Against Tough Grain.

Another general warning has been issued to farmers, and it is backed by all the local grain experts, against threshing grain before it has thoroughly dried out. Great quantities of tough wheat would inevitably be shipped, as happened last season, and the spread between the grades and tough was likely to increase.

Spuds, 90c. f.o.b. Edmonton.

The Journal says: "The Edmonton Potato Growers' Association, through its sales agency, shipped to Toronto five cars of early potatoes during the third week in August. There were three cars of red potatoes and two of white. While it was felt there was some risk in sending immature soft-skinned potatoes so long a distance so early in the season, the growers were confident that if necessary precautions were taken in the method of shipping, the results would be successful. It was necessary chiefly to provide for ventilation. To do this, stock cars were used, and the potatoes, in bags, were double-decked. The five cars arrived in Toronto in good order, one car only slightly wilted. The returns have since come to hand, all cars netting 90c per bushel f.o.b. Edmonton."

The September bulletin issued by the Department of Agriculture, Ottawa, says: "Edmonton District—Growers assured 75 p. c. yield. Diseases present will not seriously affect the yield. Good fields are turning out over two hundred bushels to the acre."

Lecture on Sunday Afternoon

Sunday next, Sept. 25, at 4 p.m., in the Town Hall, Stony Plain, Mr A. Vail, of Edmonton, will deliver a lecture upon the now widely known subject "Millions Now Living Will Never Die." This lecture has comforted multitudes bereaved by the world war, epidemic and attending sorrows. All should hear this exposition of the problems of the day.

School Fair at Spruce Grove

The School Fair at Spruce Grove on Friday last, of the combined schools of Spruce Grove Inspectorate, proved to be quite a success, from the point of exhibits by the pupils, and was well patronized by their friends.

J. T. Ross, Deputy Minister of Education, and H. A. Craig, Deputy Minister of Agriculture, were present during the proceedings, and were accompanied by several others from Edmonton interested in the Fair.

The exhibits were shown in the new building of the Spruce Grove Garage, and this was well filled. The vegetable exhibit was excellent, and well worthy the attention of the elder visitors.

The live stock exhibit was not as large as the promoters would have wished, but that exhibited was of a good class.

The other exhibits shown were well worthy of mention; and the whole affair reflected great credit on the ability of the pupils of the different schools and also on the enterprise of the teachers.

The Homesteaders

—BY—
ROBERT J. C. STEAD

Published By Special Arrangement
With the Author.

(Continued)

Presently she reached the water, and her quick ear caught the sound of a muskrat slipping gently into the stream from the reeds on the opposite bank; she could see the widening wake where he ploughed his swift way across the pond. Then her own figure stood up before her, graceful and lithe as the willows on the bank. She surveyed it a minute, then flicked the flower at her face in the water, and turned slowly homeward. She was not unhappy, but a dull sense of loss oppressed her—a sense that the world was very rich and very beautiful, and that she was feasting neither on its richness nor its beauty. There was a stirring of music and poetry in her soul, but either music nor poetry found expression. What she felt was a consciousness that great things were just beyond the horizon of her experience, things undefined and undelimited which, could she but grasp them, would deepen life and sweeten life and give a purpose to all her being. And as she walked up the path and the fragrant mist air filled her nostrils, something of that wider life seemed borne in upon her and sent a fresh spring to her ankle. And presently she discovered she was thinking about Jim Travers.

Her mother sat in the dining-room, knitting by the light of the hanging lamp. Her face seemed very pale and lovely in the soft glow. "Don't you think you have done enough?" said the girl, slipping into a sitting posture on the floor by her mother's knee. "You work, work, all the time. I suppose they'll have to let you work in heaven." "We value our work more as we grow older," said the mother. "It helps to keep us from thinking." "There you go!" exclaimed the girl; but there was a tenderness in her voice. "Worrying," said the mother, "they'd stay home for a change." The mother plied her needles in silence. "Slip away," said Beulah, she said at length. "I will wait up for a while."

Late in the night the girl heard heavy footsteps in the kitchen and bursts of loud but indistinct talking.

CHAPTER VII.

The Call of the Farther West.

Notwithstanding Harris's late hour the household was early astir the following morning. At five o'clock Jim was at work in the stables, feeding, rubbing down, and harnessing his horses, while Allan and his father walked to the engine, where they built a fresh fire and made some minor repairs. Even at this early hour the sun shone brightly, its rays mellowing in a sheen of ground-mist that enveloped the prairie, but there was a tang in the Manitoba morning air even in midsummer, and the men walked briskly through the crisp stubble. A little later Beulah came down to the corral with her milkpails, and the cows, comfortably chewing where they rested on their warm spots of earth, rose slowly and with evident great reluctance at her approach. A spar of light blue smoke ascended in a perpendicular column from the kitchen chimney; motherly hens led their broods forth to forage; pigs grunted with rising enthusiasm from nearby pens, and calves voiced insistent demands from their quarters. Harris farm, like fifty thousand others, rose from its brief hush of rest and quiet to the sounds and energies of another day.

Breakfast, like the meal of the night before, was eaten hurriedly, and at first without conversation, but at length Harris paused long enough to remark, "Riles is talkin' o' goin' West."

"The news might be worse," said Beulah. Riles, although a successful farmer, had the reputation of being grasping and hard to a degree, even in a community where such qualities of moderation, were by no means considered virtues.

Harris paid no attention to his daughter's interruption. It was evident, however, that his mention of Riles had a purpose behind it, and prevented her continuing.

"Riles has been writin' to the Department of the Interior, and it seems they're givin' a lot of land for homesteads away West, not far from the Rocky Mountains. Seems they have a good climate there, and good soil, too."

"I should think Mr. Riles would be content with what he has," said Mary Harris. "He has a fine farm here, and I'm sure both him and his wife have worked hard enough to take it easier now."

Hard work never killed nobody," pursued the farmer. "Riles is good for many a year yet, and free land ain't what it once was. Those homesteads'll be worth twenty dollars an acre by the time they're moved up."

"I wish I was sure of it—I wouldn't think of it," said Allan. "But they say it's awful dry; all right for ranchin', but no good for farmin'."

"Who says that?" demanded his father. "The ranchers. They know which side their bread's buttered on. As long as they can get grain' land for two cents an acre, or maybe nothing, of course they don't want the homesteads. They tell me the Englishmen and Frenchmen that went out into that country when us Canadians settled in Manitoba have more cattle now than they can count—they measure 'em by acres, Riles says."

Breakfast and Harris's speech came to an end simultaneously, and the subject was dropped for the time. In a few minutes Jim had his team hitched to the tank wagon in the yard. The men jumped aboard, and the wagon rattled down the road to where the engine and ploughs sat in the stubblefield.

"What notion's this father's got about Riles, do you suppose, mother?" asked Beulah, as the two women busied themselves with the morning work in the kitchen.

"Dear knows," said her mother wearily. "I hope he doesn't take it in his head to go out there too."

"Who, Dad? Oh, he wouldn't do that. He's hardly got finished with the building of this house, and you know for years he talked and looked forward to the building of the new house. His heart's quite wrapped up in the farm here. I wish he'd unwar it a bit and let it peek out at times."

"It isn't so sure. I'm beginning to think it's the money that's in the farm your father's heart is set on. If the money was to be made somewhere else, his heart would soon shift."

"Mother!" exclaimed the girl. In twenty years it was the first word approaching disloyalty she had heard from her mother's lips, and she could hardly trust her ears. It was nothing new to Beulah to criticize her father; that was her daily custom, and she pursued it with the whole frankness of her nature. But her mother had always defended, sometimes mildly chiding, but never admitting either weakness or injustice on the part of John Harris.

"Well, I just can't stand it much longer," said the mother, the emotions which she had so long held in check overcoming her. "Here I've slaved and saved until I'm an old woman, and what better are we for? We've better things to eat and more things to wear and a bigger house to keep clean, and you're here to tell me to go!"

"We're better things to eat and more things to wear and a bigger house to keep clean, and you're here to tell me to go!"

Beulah stood aghast at this outburst, and when her mother paused and looked at her, and she saw the unbidden wells of water-gathering in the tender eyes, the girl could no longer restrain herself. With a cry she flung her arms about her mother's neck, and for a few moments the two forgot their habitual restraint and were but naked souls—mingling together.

"It's a shame," exclaimed Beulah at length. "We're not living; we're just existing." "When I get among people there's really living—like the

Grants, over there—you don't know how mortified and mean I feel. And it's not that alone—the sense of loss, the sense that life is going by and I'm not making the best of it. You know we are missing the real thing; we are just living on the husks, and father is so blind he thinks the husks are the grain itself."

"Your father is hungry, too," said the mother. "Hungry—hungry, and he thinks that more land, more money, more success, will fill him. And in the meantime he's forgetting the things that would satisfy nature love that was ours, the little dove—Oh, child, what an I saying. What an unfaithful creature I am! You must forget, Beulah, you must forget these words—words of shame they are!"

"The shame is his," declared the girl, defiantly. "And I won't stand this nonsense about homesteads again. I just won't stand it. If he says anything more about it I'll—I'll fly off, that's what I'll do. And I've a few remarks for him about Riles that won't keep much longer. The old badger—he's at the bottom of all this."

"You mustn't quarrel with your father, dearie, you mustn't do that." "I'm not going to quarrel with him, but I'm going to say some things that need saying. And if it comes to a show-down, and he must go—well, he must, but you and I will stay with the badger, won't we, mother?"

But the mother's thought now was for quelling the storm in the turbulent heart of her daughter. Beulah's nature was not one to lend itself to passive submission, not yet passive resistance. She was the soul of loyalty, but with that loyalty she combined a furious intolerance of things as they should not be. She had not yet reached the philosophic age, but she was old enough to value life, and to know that what she called the real things were escaping her. At night, as she looked up at the myriad stars spangling the heavens, the girl's heart was escaping her. She felt a sense of restriction, of limitation, of loss—a sense that somewhere lay a life, a purpose, a Plan, and that only by becoming part of that Plan could he live to the fullest.

For mother of those deeper questions which, in content of conditions as a matter of course. Yet at times she had inklings of those deeper questions which, in content of conditions as a matter of course. Yet at times she had inklings of those deeper questions which, in content of conditions as a matter of course.

There, there now," she said, gently stroking her daughter's hair. "Let us forget this, and remember how much we have to be thankful for. We have our health, and our home, and the bright sunshine, and I declare," she interrupted, catching a glimpse of something through the window, "if the cows haven't broken from the lower pasture and are all through the outfield! You'll have to take Collie and get them back, somehow, or bring them up to the corral."

(To be continued)

In England, to secure greater safety on the highways, patrols are stationed at dangerous crossings to warn motorists, and at bad stretches of road.

It was not so sure. I'm beginning to think it's the money that's in the farm your father's heart is set on. If the money was to be made somewhere else, his heart would soon shift."

"Mother!" exclaimed the girl. In twenty years it was the first word approaching disloyalty she had heard from her mother's lips, and she could hardly trust her ears. It was nothing new to Beulah to criticize her father; that was her daily custom, and she pursued it with the whole frankness of her nature. But her mother had always defended, sometimes mildly chiding, but never admitting either weakness or injustice on the part of John Harris.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

The Seven Seas

Separate Continent Surrounds Each According to Hindu Mythology.

The "Seven Seas" exist in Hindu mythology, according to the Juras the earth is circular and flat, like the flower of a water lily. Its circumference is 4 billion miles. In the centre is Mount Somoero. On this mountain are three peaks formed of gold, pearls and precious stones, where the deities reside, and the sea is surrounded by a separate continent.

Five Irish Delegates Have Been Appointed To British Conference

Dublin.—The Dail Eireann approved its "cabinet's" reply to Mr. Lloyd George's latest proposals and ratified the appointment of five delegates to a "possible conference" with representatives of Great Britain.

The appointments of plenipotentiaries approved were those of the following: Arthur Griffith, founder of the Sinn Féin and "foreign minister," chairman; Michael Collins, "finance minister"; Robert C. Barton, who has been one of the leading figures in the preliminary negotiations; Eamon J. Duggan, Sinn Féin member of parliament; and a leading figure in the arrangement of the Irish trade; George Gavan Duffy, who has acted as representative of the Sinn Féin abroad.

Nothing has leaked out as to whether the reply is acceptance or non-acceptance of the invitation to a conference, but the fact that five Irish plenipotentiaries have been appointed is taken as indicating confidence in continuance of the negotiations. Mr. Lloyd George is expected to remain in Scotland at least another three weeks.

Grain Exchange

Appoints New Head

Retiring President Says Producers Should Understand Marketing Methods.

Winnipeg.—C. H. Leaman was formally elected president of the Winnipeg Grain Exchange, succeeding Norman L. Leach, retired, at the annual meeting. J. B. Craig and Dr. Robert Magill, vice-president and secretary-treasurer, respectively, who were elected by acclamation along with Mr. Leaman at the non-joint meeting were also installed in office.

A resume of the past year's work in the grain trade, with suggestions for the general improvement of the trade was the feature of the retiring president's address, which stated: "There is today a wider and keener interest in grain marketing methods and systems; there are many criticisms of these methods. They should be more clearly understood by the producer, the business and general community at large, and I submit to you the suggestion of co-operation with and education of your trade, your customers and the general public toward that end."

Greeks Will Resume Offensive

Soldiers Were Taking Rest and Bringing Up Supplies.

Smyrna.—Greek operations against the Turkish Nationalists have been interrupted, but will be resumed, said General Papoulas, commander-in-chief of the Greek armies in Asia Minor. He said his forces were convinced that they were able to annihilate the enemy.

The offensive was halted so the Greek soldiers might be given a rest and arranging for bringing up supplies and provisions.

Fire Destroys Lumber

Stowacke, N.S.—A lumber pile of lumber were destroyed here by a fire which broke out in one of eight lumber piles. The lumber was piled near the railway tracks and all Canadian Pacific telegraph poles in the vicinity were burned and the wires put out of commission.

List Suggested Topics.

Washington.—The United States Government has sent to the governments of all the powers invited in the conference on the limitation of armaments and Far Eastern questions a list of the topics suggested for discussion.

Heavy Grain Shipment From West.

Winnipeg.—Approximately 16,000,000 bushels of grain have been billed over the Canadian National Railway from western points to Sept. 14. This is more grain than was loaded up to October 4, last year, it is stated.

British Dirigible

May Replace ZR-2

U.S. Government Wants to Obtain Former German Zeppelin.

London.—Reports that the United States and British Governments may arrange for the transfer of one of Great Britain's remaining airships to United States ownership to replace the wrecked ZR-2, have received some credence in United States official circles here where it is stated the United States Government, some time prior to contracting for the ZR-2 considered the desirability of obtaining one of the former German Zeppelins for experimental and instructional purposes.

When these German air fighters were turned over to the allies, Italy, France and Britain received, one each and America none. Great Britain's Zeppelin, the L-71 is the largest rigid airship in existence now; the ZR-2 is gone. Her cubic capacity is 2,400,000 feet or 380,000 feet less than the ZR-2. The length of the L-71 is 743 feet as against 695 feet for the ZR-2.

Will Recatalogue

All In France

Police Chief Orders Every Thumb Print Registered.

Paris.—The entire French nation, as well as all foreigners residing in France, will be recatalogued and compelled to register their thumb prints, according to the latest regulation of Police Chief Lullier. Identification of crime suspects and the detection of criminals is expected to be made easier under the new system.

Pussycat In Australia.

London.—A Reuter cable from Adelaide, South Australia, announces the arrival there of Pussycat Johnson. Johnson says the United States will remain dry and that England will be dry by 1930.

By making your purchases from your home merchant you are contributing directly to the prosperity of the community in which you live.

Alberta Government Anxious To Develop More Coal Markets

Italy Has Good Harvest

Crop Expected To Reach Pre-War Productiveness.

Rome.—Italy's harvest this year will reach its pre-war productiveness, according to the government crop forecasts. The total harvest anticipated will reach 51,200,000 quintals (of about 220 pounds each) comprising all kinds of grain.

The average pre-war crop was calculated at 48,000,000 quintals. During the war, production decreased to 38,000,000 quintals.

The present year's crop is also distinguished by the fact that it lacks but 6,000,000 in equalling the record grain crop of Italy, which was in 1913, when it reached nearly 58,000,000 quintals.

Work For Unemployed

In Fort William

Foundry Company Is To Receive Order For Repairing.

Fort William, Ont.—The Fort William Car and Foundry Company is to receive an order for repairing 1,500 government cars, according to a telegram received here from Dr. R. J. Manion, M.P.

An additional 1,000 feet of breakwater is to be added to the Mission breakwater, work to start immediately. This means that the unemployment here will be greatly alleviated.

Approve Relief Measures

St. Vincent Will Help Poor Who Lost Crops in Flood.

St. Vincent.—Windward Islands.—Expenditures for the relief of the poor who lost food crops and houses in the great storm which swept over St. Vincent have been approved by the legislature. The storm damage on the neighboring island of Grenada is placed at a moderate estimate at \$500,000. Nutmeg and cocoa plantations which were ruined will require at least seven years for re-establishment.

Chinese Canadian

Trade Increases

Net Increase of 840 Per Cent. in Five Years.

Hamilton, Ont.—China and Canada have much in common, and their trade relationship is growing substantially every year, declared W. Y. Kwan, chairman of the Chinese Railway Commission to members of the Kinsmen's Club. He emphasized that in 1918, the last year in which statistics were available, China had imported and exported goods from and to Canada valued at more than \$17,000,000, which when compared with 1913 figures showed a net increase of 840 per cent.

Edmonton.—Representing the mineral industry in the entire western province, 75 delegates were in attendance when the opening of the third annual western convention of the Canadian Institute of Mining and Metallurgy was called to order by the chairman, O. E. S. Whiteside, of Coleman. Mayor G. M. Duggan briefly addressed the visiting delegates, welcoming them to Edmonton on behalf of the city.

The Provincial Government was represented by Premier Greenfield, who spoke on the research work of the government in the matter of the mineral industry.

"The government is endeavoring to develop more markets for Alberta coal," declared Premier Greenfield, "but we have met with one difficulty and that is the grading of coal."

The Premier deplored the lack of uniformity in the grading of coal, and stated that it had proved a hindrance in the marketing of the product. "We are advertising, making demonstrations and continuing the research work," he said, "and I would like to suggest co-operation with the government as well as advise you that the uniform system of grading coal is a necessity."

Premier Greenfield gave an account of his trip into the north country, and said he was deeply impressed and encouraged by his observations of conditions. The government's test hole in the McMurray townsite where the mining of salt is being investigated by the research branch, was also mentioned by the premier. "The government is thoroughly aware of the importance of the mineral industries in the province," he said.

The approach of the winter season and its effect on the unemployment situation in the province was touched upon by Mr. Greenfield. "I am opposed to soup kitchens and that form of relief," he said, "and would like to ask you to employ during the winter months, if possible, as much extra help as you can."

August Showed

Decline In Trade

Exports of Agricultural Products Decrease Ten Million Dollars.

Ottawa.—A sharp decline in Canadian trade for the month of August, 1921, as compared with August, 1920, was reflected in the summary of the Canadian trade issued by the department of customs. Total Canadian trade for August, 1921, amounted to \$127,510,299, as compared with \$238,085,409, for August, 1920. For the five months ending with the end of August, total trade was \$21,602,317,38; 1921, \$1,063,353,170, a reduction of \$461,038,132.

During August, 1921, imports entered for home consumption had a total value of \$65,147,301, as compared with \$124,318,014, a reduction of \$59,170,713. For the five months ending August 31, the total merchandise entered for consumption was valued at \$319,009,763, as compared with \$397,890,603 in 1920. In August, 1920, domestic merchandise imported had a total value of \$112,278,964, as compared with \$61,485,993 for August, 1921.

Canadian Importer Reaches Victoria

Victoria, B.C.—Emerging like a specter from the fog-bound Pacific after having been virtually given up for lost the derelict Canadian Government steamship Canadian Importer, with a six degree list, creaky but still waterborne, cheated the ocean of its expected prey and deftly hopped into port with her crew of undaunted British seamen still at their posts of duty.

Chicago Builders Return to Work.

Chicago.—Facing the possibility of an open-shop in the Chicago building industry, and spurred to action by refusal of Judge Landis, arbiter, to grant a wage decision rehearing until they are at work, union men in the building industry here were coming back to work in large numbers.

Trial Shipment Proves Failure

Alberta Government Lost On Shipment of Beef Cattle.

Edmonton, Alta.—The trial shipment of fat beef cattle that was sent to Scotland in June by the provincial department of agriculture, resulted in a net loss to the government. They show an average cost per head of \$303, with an average return of \$188.88. There were thirty-six head of export steers in the shipment. The animals were shipped to Glasgow and were there sold at the public market for immediate slaughter.

When the steers left Edmonton they stood at a cost to the government of \$168.17 per animal, and the transportation charges, Edmonton to Glasgow, were \$10.12 per animal.

Added to this cost were the expenses of the attendant, bank charges and other overhead expenses, bringing the total cost per head to \$302.07. Records kept en route show that there was practically no shrinkage in any of the animals. The sales in the Glasgow markets showed that the smaller handweight steers of good type and breeding, ranging from 1,200 to 1,350 pounds, were most in demand, the heavier, fat steers not meeting with ready sale for the summer trade.

Will Support Housing Scheme

Alberta Premier Says Province Willing to Give Help.

Edmonton.—Mayors Duggan, Edmonton, and Adams, Calgary, met Premier Greenfield to discuss the question of the Alberta cities obtaining aid from the Dominion housing scheme for the purpose of providing relief for unemployed.

Premier Greenfield gave assurance that as soon as proper evidence was produced to the effect that there was a real demand for houses in the cities, then the province would support the scheme and give security for the loans obtained.

Turks Must Surrender Plotters.

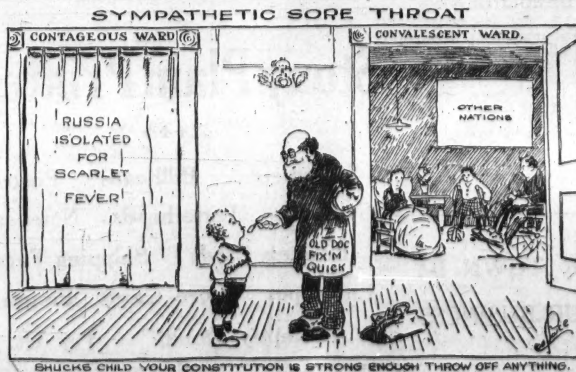

Constantinople.—Allied authorities here have invited the Turkish Government to surrender the men involved in the revolutionary plot, discovery of which was announced recently. These persons must be turned over to the allies within a week or the government will be held responsible. The conspirators will be tried by an allied court martial.

Disagreed Over Wages.

St. Catharines, Ont.—After ten hours' conference the contractors and union men engaged on the Welland Ship Canal have agreed to disagree on the question of wages and other points at issue and it is now up to the government to decide.

Cholera Spreads Fast.

Paris.—Cholera is fast spreading in the countries bordering Russia. The daily average deaths in Tiflis alone is between 30 and 40.

The Undesirable Scrub Bull

That invariably defective animal the scrub bull, is being gradually eliminated. The Live Stock Branch at Ottawa, by its policy of loaning pure-bred bulls to specially organized associations in the newly settled districts and in backward sections of the older provinces, is doing much towards achieving this end. In the seven years following the inauguration of the policy in 1913, 2,531 bulls purchased for \$368, 569 an average of \$144.85 per head, had been loaned. Of these, British Columbia has had 119, Alberta 497, Saskatchewan 539, Manitoba 220, Ontario 216, Quebec 759, New Brunswick 64, Nova Scotia 79 and Prince Ed. Islands 38. Returns substantiate the statement that where these bulls have been used there has been a considerable improvement in the stock marketed, and that in many districts to which bulls were loaned 5 or 6 years ago, farmers have felt warranted in buying pure bred animal of their own. As a result, debartment-loaned sires are released and sent to more needy districts. This is particularly noticeable in Quebec, where the number loaned decreased from 200 in 1916 to 62 in 1919, while in Alberta and Saskatchewan the loanings had increased. It is interesting to note as evidence of the economy practiced in carrying out the policy that in one year 426 bulls whose usefulness had been impaired were sold for an average of 67 p.c. of their original cost.

"Efficiency and Economy."

"All dismissals from the Government service that have been made to date have been strictly in the interests of economy and efficiency, and the same policy will be rigidly followed in all future cases," said Premier Greenfield, when queried as to the meaning of recent reductions in several of the departmental staffs.

"The ministers all have free hands in their own departments, and we are after whatever reasonable economy can be effected without lessening efficiency, and the net result of the changes and readjustments that we are making will be to increase efficiency. There is no desire to dismiss any official who is in his or her right place and earning the salary paid."

Creeps Into The System Just Like a Serpent

Like a thief in the night, it steals through the system that's how Catarrh acts. Don't trifle with such a scourge. Time and experience have proved that Catarrh is a wonderful remedy for all Catarrhal and bronchial troubles. You don't take any drugs, you just inhale the sweet soothing vapor of Catarrh which is laden with balsamic essences that heal, relieve and ease the sufferer. To strengthen the throat, to sweeten the breath, to stop nasty discharges, to drive out Catarrh, holds and weakness in the throat, use Catarrh. Two months treatment, one dollar, smaller size 50c, all dealers or the Catarrh Co., Montreal.

World Happenings Briefly Told

The Soviet Government has declared a state of war in Bessarabia, in the Roumanian frontier zone.

The discovery of a fast revolution in movement at Constantinople is announced by the British authorities here.

Irish has been declared the official language of the Irish republican parliament, Pierce Bransley, a prominent Republican has declared.

Fourteen hundred head of sheep were burned to death when lightning struck a large stock barn on a farm near Monrovia, Ills. Another 1,600 were saved.

A ten-year-old immigrant lad from Russia who got 100 per cent grading in a New York school faces deportation as an imbecile under a U.S. legal technicality.

A Reuter despatch from Geneva says now that the sitings of the various committees of the League of Nations have been thrown open to the public, more attention is being paid to the proceedings.

The arrest of 40 extreme Socialists, mostly Japanese, but some of them Koreans, is featured by the Tokio newspapers, which allege the arrests were connected with a serious sedition plot.

A Constantinople message to the London Times says it is believed the Greeks had 18,000 men put out of action during their recent drive toward Angora.

The Turkish Nationalists' losses are placed at 12,000.

Edmonton's first carload of grain went eastward one week earlier than in 1920. It was a car of barley, shipped by W. Ross Alger and Company. The grain was purchased from R. W. Gerson, North Edmonton, and appeared to be of splendid quality.

Reuter's Cape Town correspondent cables that Dr. Goodouard, professor of geology and zoology at Stellenbosch University, South Africa, was officially nominated to fill the vacancy on the staff of Sir Ernest Shackleton's Quest expedition to the Antarctic. Sir Ernest's staff numbers eighteen and includes at least one representative from each of the self-governing dominions.

MOTHERS!

WATCH YOUR TEETHING BABIES

THOUSANDS OF THEM DIE EVERY SUMMER

When the baby starts to cut its teeth, then is the time the germ mother is under the stress of great anxiety. The child's bowels become loose, and diarrhoea, dysentery, colic, cramps and many other bowel complaints manifest themselves; the gums become swollen, creakers form in the mouth, and in many cases the child wastes to a shadow, and very often the termination is fatal.

On the first indication of any looseness of the bowels, give a few doses of

**DR. FOWLER'S
EXTRACT OF
WILD STRAWBERRY**

and thus, perhaps, save your baby's life.

For the past 76 years "Dr. Fowler's" has been used by mothers for teething babies so you do not experiment with a new and untried remedy which might be dangerous to your darling's health.

Price, 50c a bottle; put up by The W. L. Milburn Co., Limited, Toronto, Ont.

Three Hundred Great Years

Undreamed of Advancement Since
British Empire Was Founded.

A period of three hundred years—a span which is short enough in the history of any age in which we are not directly concerned—is all that separates us from the beginning of the colonial policy upon which the mighty British Empire was founded, but these three centuries have seen new worlds discovered, new nations arise and an advancement in civilization beyond the dreams of those who lived at their beginning. The impressive ceremonies at Annapolis Royal possess far greater interest and significance than would attach to a merely local observance, for they celebrated events which have had no small part in moulding the history of this continent, and their effects have been felt over an even greater part of the surface of the globe.—The St. John Telegraph.

WIND ON THE STOMACH QUICKLY RELIEVED

It is a good thing to know just what to do when gas belching starts. One sufferer related the following experience: "A few months ago I ate some green vegetables and some fruit that was not quite ripe. It brought on indigestion, hiccupping, nausea, cramps. I belched gas continually, and I urged me to use 'Nervine.' I took it in hot sweetened water, and got quick relief. I will never again be without this valuable remedy. Nervine is a household necessary, large 35c bottle sold everywhere."

To Produce Dyes

A joint stock company will be formed in Winnipeg in the near future with a capitalization of \$20,000 and a plant valued at more than \$250,000 will be erected in St. Boniface, for the production of dyes, according to T. H. Brooks, inventor of a new method of extracting aniline dyes from coal tar.

Really Reliable Asthma Remedy
All sufferers from chronic Asthma should try Dr. J. D. Kellogg's Asthma Remedy. No matter how many other remedies have failed to give relief. It is a common thing for Dr. J. D. Kellogg's Asthma Remedy to succeed where others fail, as is testified by many thousands who have found this out for themselves. Why continue to endure days and nights of unrelenting agony when a remedy of such high standing has not yet been tried?

Started Forest Fire

Robert Louis Stevenson Would Have
Been Lynched If Caught.

In connection with American forest fires it may be recalled that one of England's most distinguished men of letters once was guilty of having fired a forest in California, and had been identified with the accident—which the inhabitants of the locality would have construed instantly as a crime—he would have suffered the capital penalty under Lynch law. Robert Louis Stevenson, in his "Old Pacific Coast," admits the folly that induced him to satisfy his curiosity as to the inflammable nature of the moss that ornaments the pine trees in the woods above Monterey by applying a match to the trunk of the tree, instead of detaching a portion of the moss and experimenting in safety.

"As it was, the tree went off like a rocket. 'In three seconds it was a roaring pillar of fire.' Men were a few feet away, by combing another break, and had any one observed Stevenson's experiment his neck would not have been 'worth a pinch of snuff.' At night he was able to discern his 'own particular fire' quite distinct from the other, and burning 'with even greater vigor.'"

A pleasant medicine for children is Mother-Grave's Worm Exterminator, and it is excellent for driving worms from the system.

Norwegian scientists claim Greenland is snowing slowly westward at the rate of about 10 yards a year.

At heights above 23,000 feet above sea level, mountaineers say that sleep would be difficult, if not impossible.

Every dollar spent in your home town is a boost for the community.

CUTICURA DEALS INTENSE ITCHING

Burning On Hands, Could Not Put
Them In Water, Lost Sleep.

"My hands were very sore and I could not put them in water to wash them. There were some pimples on my hands, and the itching and burning were so intense that I scratched and irritated them, and I could not sleep at night."

"The trouble lasted two weeks before I tried Cuticura. When I had used two cakes of Cuticura Soap and one box of Cuticura Ointment for about two weeks I was healed." (Signed) Reginald Dalgle, R. F. D. 2, Fort Kent, Maine.

Use Cuticura for every-day toilet purposes. Rub with Soap, soothe with Ointment, dust with Powder. See Size, Ointment 25c and 50c, Tubes 15c, Sold Everywhere. Cuticura Soap 50c and 10c. Cuticura Soap above without tube.

Postal Rates Advance

Will Be Four Cents to Other Parts of
Empire.

An advance of one cent per ounce is announced in the letter postage rate between Canada and other parts of the Empire. The former rate was two cents per ounce with an added one cent as war tax. The new rate will be three cents an ounce, with one cent war tax additional.

The postage rate to foreign countries has been increased from five cents for the first ounce and three cents for each succeeding ounce to 10 cents for the first ounce and five cents for each additional ounce or fraction thereof.

A POPULAR TONIC

One That Enriches the Blood and
Strengthens the Nerves.

Proper food, fresh air and a good tonic will keep most people in good health. Hurried meals, indoor confinement in badly ventilated rooms and lack of sleep are serious enemies. In this condition Dr. Williams' Pink Pills are a popular tonic. They contain the first food for the blood, and have a beneficial effect through enriching the blood and strengthening the nerves.

For growing girls, who become thin and pale, for pale, tired women and for old people who fail in strength, Dr. Williams' Pink Pills are an ideal tonic. Their benefit in anemic conditions is shown by the case of Miss Lucy A. Stevens, Hillsboro, N.C., who says: "Last spring I was in very poor health, and completely run down. I had severe headaches. The least exertion would cause my heart to palpitate violently, my appetite was poor, and at times I had fainting spells. This went on for some months, and although I was taking medicine, I seemed to be growing weaker. I then tried Dr. Williams' Pink Pills, and I have great cause to be thankful that I did so, as they have given me a wonderful improvement in my condition. I can now work without fatigue, go upstairs without becoming breathless, and have gained in weight. I think these pills are an ideal medicine in cases like mine."

You can get Dr. Williams' Pink Pills from any medicine dealer or by mail at 50 cents a box or six boxes for 2.50 from "The Dr. Williams' Medicine Co., Brockville, Ont."

Paper Yarn.

Paper yarn is being manufactured in Spain. The material for the yarn being derived from Eucalyptus wood. The yarn is strong and adapted to the manufacture of sack cloth and imitation burlap.

The total amount of money spent on sports in the British Isles each year is so large that if it were converted into gold, it would require a train a mile long to transport it.

So Naturally.

"Waiter, this coffee is nothing but mud." "Yes, sir; it was ground this morning."

Corns, cause much suffering, but Holloway's Corn Remover offers a speedy, sure and satisfactory relief.

Far From the End.

"What's that grass widow's last name?" "Nobody knows. She hasn't come to it yet."—Philadelphia Bulletin.

Minard's Liniment. Lamberman's Friend.

W. N. U. 1386

A Becoming Frock For The Dark-Eyed Girl

By Marie Belmont.

This lovely frock is made of a fine quality of burnt orange voile. The bodice is designed with a wide spread fichu which is prettily draped about the shoulders. This is edged with ecru lace. The small puffed sleeves are trimmed in like manner. The skirt shows a continuation of the fichu effect, for it is designed with an irregular overskirt. This is caught up at the side with a spray of black-eyed susans. The underskirt is also adorned with the ecru lace. A belt of dark brown velvet ribbon defines the waistline and clustered at one side of the frock is another spray of the black-centred flowers.

The Milk Maid.

A young man went on one occasion to call at a country farm house to make inquiries after his sweetheart, who had charge of the dairy. Her master opened the door, and her lover asked him kindly:

"How is the milkmaid?" But the farmer angrily replied, as he slammed the door on the stranger's face: "Our milk isn't made; it's got from the cow."

For Scalds and Burns.—Dr. Thomas' Electric Oil is a standard remedy for the prompt treatment of scalds and burns. Its healing power quickly soothes the pain and aids a speedy recovery from the injury. It is also an ever-ready remedy for all manner of cuts, bruises and sprains, as well as for relieving the pains arising from inflammation of various kinds. A bottle in the house and stable saves many a doctor's and veterinary's fee.

France is planning an air force consisting of 140 battle squadrons and 80 observation squadrons.

ROYAL YEAST CAKES MAKE PERFECT BREAD

P. S.—All Shoes bought at sale prices must be cash.

+++

J. MILLER.

Mrs. Swaren's High Jump.

On Monday night Mr. and Mrs. Johnny Swaren thought the day of judgment had come. The night was still and dark. The moon crept through the sky like a shrouded ghost. Mr. and Mrs. Johnny Swaren slept. Suddenly they heard a sound like Gabriel's trumpet. Then another noise as if the lower regions were being bombarded with thunderbolts. And then a sound like the shrieking of a thousand lost souls.

It was a shivaree. The trumpet was McMahon's motor horn tooted at the bedroom window screen. The explosions were a barrage of shotguns. The lost souls were forty men and two women, who composed the party.

At the sound of the first gun, Mrs. Swaren says she jumped four feet in the air. Luckily she came down on the bed again.

When the first shock was over the house was opened to the visitors, and a happy social time was spent.

The shivaree was under the auspices of the band boys, who made a presentation to the happy couple of some aluminum ware. The presentation, however, conditional. Johnny was sworn to name his future children after the band boys. At present there are eighteen in the band and several recruits in the offing. The task looked tremendous, but Johnny is not the sort to stick to odds, and he accepted the present without further argument.

In presenting the gift, Jack Barrigan made a neat little speech in which he indulged in all the customary felicities of the occasion. John replied with a few well-chosen words. (No well-trained husband being allowed to say more than a few at any time.)—Forestburg Home News.

Shooting Affray at Glory Hills

What may prove to be a serious shooting affray took place Sunday midnight at the farm of Dennis Maisenko, six miles north of Stony Plain. A dance had been in progress, when several neighbors and three friends from Edmonton were present. Although there is said to have been no trouble at the time, about twelve o'clock Maisenko went outside, and shortly after a rifle shot was heard, the bullet piercing the window glass, and striking Peter Sladkoff in the stomach.

Dr Jones of Stony Plain was summoned, and attended the wounded man. Shortly afterward Sladkoff was taken to the Royal Alexandra Hospital, Edmonton, where a probe was made for the bullet. The bullet was found embedded in the muscles of the back.

Dennis disappeared after the shooting, but was found by the police at the residence of a neighbor, about 10 o'clock on Monday morning, and taken to Edmonton. The injured man is said to be in a serious condition.

Stony Plain and District

On Saturday, Sept. 17, to Mr. and Mrs. Fred Schellenberger, of Golden Spike, a son.

In Stony Plain, on Sunday, Sept. 18, to Mr. and Mrs. Henry Sinner, a daughter.

Mr. M. B. McColl is down the St. Paul de Metis line this week, judging at school fairs.

An illustrated lecture was given in the Methodist Church on Sunday evening.

Wednesday's train from Prince Rupert was late about 3 hrs. and 30 mins.

There are several cases of swamp fever among the horses in this district.

Ile B. Blowed shipped another chicken Friday, going West.

Ald. Joe Adair of Edmonton, well known in Stony Plain, received some nasty injuries in an automobile accident last week.

The silo at Sunnybrook Farm was filled on Saturday last.

Gen. Griesbach, M. P., has been appointed a Senator.

Reduced freight rates on grain and grain products for export come into force tomorrow, Sept. 23.

The usual good time which everybody has at a Holborn dance was enjoyed at the Schoolhouse there, Friday night last. The weather was fine, the floor was good, and the music excellent.

A special from Duffield says: "The Gillespie Grain Co.'s track buyer was around last week, selecting a site for a grain warehouse. We are delighted to know that something is to be done to facilitate the handling of this year's crop."

The ground has been surveyed for building a spur in from the railway at Duffield to the Mullen Mine.

See Russell's for all your lubricating oils.

Services will be held at Calahoon alternate Sundays, by Mr. Baker of Lakemere.

The Harvest Home dance of the Calahoon U.F.W.A. on Friday last was a big success, crowds being present from all over the district.

Miss P. Calvert is the teacher at Calahoon School, which opened last week.

Cups, Saucers and Dishes at Russell's.

Mr. R. E. Wood paid 10¢ for hogs on Wednesday.

See the Paint Sale at Russell's.

1-Room 1-School Rule.

Some slight friction was anticipated at the local School Fair last week, when the proposition to have each room in a school to be judged as a school was put in force. Trouble was averted by the exercise of a little diplomacy on the part of the local teachers. Stony Plain Consolidated secured 17 first prizes, 13 seconds, 13 thirds, 13 fourths, 7 fifths, a total of 63, besides several specials.

The pupils of Comet won 2 first prizes, 9 seconds, 9 thirds, 6 fourths, 4 fifths—total 29.

Golden Spike was awarded the Department of Education's diploma for the largest number of exhibits from any school, with 141 points.

The five rooms of Stony Plain Consolidated scored a total of 207 points.

Watch The Sun next week for a write-up on the Stony Plain School Fair.
